MoneyGram International Reports First Quarter 2021 Results

MoneyGram delivers first quarter revenue of \$310.1 million with 7% year-over-year growth on the strength of money transfer revenue growth of 12%

MGO achieves all-time record high for customers, transactions and revenue in the first quarter

Digital transactions continue to accelerate, reaching 32% of money transfer transactions at the end of March

DALLAS (May 6, 2021) -- MoneyGram International, Inc. (NASDAQ: MGI) today reported financial results for its first quarter ended March 31, 2021.

First Quarter 2021 Business Highlights

“Our customer-centric strategy helped drive a strong start to the year with money transfer revenue growth accelerating to 12% as the digital business continues to overperform reaching 32% of total money transfer transactions at the end of March,” said Alex Holmes, MoneyGram Chairman and CEO. “The underlying momentum in the business combined with the positive sentiment surrounding the upcoming exit from the DPA, positions the Company well to refinance its debt in the coming months and accelerate our digital transformation.”

Digital performance in the first quarter was led by MoneyGram's online direct-to-consumer channel (MGO):

- MGO delivered a record quarter for customers, transactions and revenue, exceeding its all-time high achieved in the fourth quarter of 2020
 - Year-over-year, MGO delivered 119% revenue growth and 102% transaction growth on the strength of new app downloads and customer retention rates
 - Year-over-year, cross-border online revenue grew an impressive 131% and transactions grew an equally impressive 130%
- Total digital, which includes MGO, reported year-over-year transaction growth of 86% in the first quarter
 - Digital revenue reached a new record of \$60.4 million for the first quarter representing a 77% year-over-year revenue growth rate
 - Digital partnerships delivered transaction growth of 47% year-over-year
 - Payouts through account deposit, Visa Direct and mobile wallets increased 128% year-over-year
- Digital transactions accounted for 32% of all money transfer transactions at the end of March

First Quarter 2021 Financial Results, Year-Over-Year

- Total revenue of \$310.1 million increased 7% on a reported basis or an increase of 3% on a constant currency basis
 - Money transfer revenue was \$285.4 million, up 12%, or 8% on a constant currency basis, driven by double-digit transaction growth
 - Investment revenue was \$2.0 million for the quarter representing a decline of \$8.1 million due to lower prevailing interest rates
- Gross Profit was \$144.8 million, an increase of \$8.3 million driven by strength of money transfer revenue and offset by the decline in investment income
- Total operating expenses were \$136.4 million, an increase of \$13.0 million or 11% including:
 - Transaction and Operations Support expenses increased \$5.4 million or 14% which were driven by:
 - The elimination of the \$12.1 million net benefit from Ripple market development fees generated in the first quarter of 2020 due to the halting of transactions under the commercial agreement with Ripple effective early December 2020
 - Compensation and Benefits were \$62.2 million, an increase of \$8.8 million primarily driven by severance expenses
- Operating Income was \$8.4 million, a decrease of 36% driven by the elimination of Ripple market development fees, lower investment income and severance costs
- Net loss of \$15.4 million for the quarter representing an improvement of \$6.1 million
- Diluted loss per share was \$0.19 and diluted adjusted loss per share was \$0.06
- Adjusted EBITDA decreased 3% to \$49.9 million, or 11% on a constant currency basis driven by the reduction of \$17.4 million related to the net benefit of Ripple market development fees and reduced investment income due to lower prevailing interest rates

Holmes concluded, "As part of the next phase of our digital transformation and in response to market demand to access our leading capabilities, we launched a new business line to open our platform to new customers and use cases. Over the last few years, we've built an API-driven infrastructure that enables us to seamlessly scale volume through our global network, and we're excited about this strategic growth opportunity to monetize our capabilities in new ways."

Balance Sheet and Liquidity

- Cash and cash equivalents was \$152.8 million at quarter-end compared to \$131.0 million as of the end of the first quarter 2020
- First quarter interest expense was \$22.3 million and capital expenditures were \$11.2 million

Department of Justice Update

MoneyGram also reported positive developments as it nears the end of the term of its Deferred Prosecution Agreement ("DPA"). Earlier this week, MoneyGram and the government filed a joint status report with the court in which the parties confirmed that MoneyGram has satisfied its financial obligations under the DPA and that the independent compliance monitor has certified to MoneyGram and the government that MoneyGram's anti-fraud and anti-money laundering compliance program meets the standard set forth in the DPA.

In addition, the joint status report states that on May 10, 2021, MoneyGram intends to certify to the government that the Company has fulfilled its obligations under the DPA, and that after the government receives this certification, and provided that the Company has otherwise complied with the DPA, the Government will move to dismiss the matter underlying the DPA within 45 days of May 10, 2021.

Second Quarter 2021 Outlook

The Company is providing the following outlook for the quarter ending June 30, 2021:

The Company anticipates total revenue in the range of \$315 to \$325 million based on continuing growth in its money transfer business. This range includes a potential impact of up to \$10 million related to the introduction of new competition in the Walmart Marketplace, the rollout of which began at the end of April.

The Company anticipates Adjusted EBITDA in the range of \$50 to \$55 million. This range considers the revenue trends described above and no benefit from Ripple incentive fees, which were \$8.8 million in the second quarter of 2020.

Conference Call

MoneyGram International will host a conference call on May 7, at 9:00 a.m. ET, to discuss its results. Alex Holmes, Chairman and CEO and Larry Angelilli, CFO will host the call.

Forward-Looking Statements

This communication contains forward-looking statements which are protected as forward-looking statements under the Private Securities Litigation Reform Act of 1995 that are not limited to historical facts, but reflect MoneyGram's current beliefs, expectations or intentions regarding future events and speak only as of the date they are made. Words such as "may," "might," "will," "could," "should," "would," "expect," "plan," "project," "intend," "anticipate," "believe," "estimate," "predict," "potential," "pursuant," "target," "forecast," "outlook," "continue," "currently," and similar expressions are intended to identify such forward-looking statements. The statements in this communication that are not historical statements are forward-looking statements within the meaning of the federal securities laws. Specific forward-looking statements include, among others, statements regarding the Company's projected results of operations and specific factors expected to impact the Company's results of operations. Forward-looking statements are subject to numerous risks and uncertainties that are difficult to predict and many of which are beyond MoneyGram's control, which could cause actual results to differ materially from the results expressed or implied by the statements.

These risks and uncertainties include, but are not limited to:

- the impact of the COVID-19 pandemic or future pandemics on our business, including the potential for work stoppages, lockdowns, shelter-in-place, or restricted movement guidelines, service delays, lower consumer and commercial activity;
- our ability to compete effectively;
- our ability to maintain key agent or biller relationships, or a reduction in business or transaction volume from these relationships, including our largest agent, Walmart, whether through the introduction by Walmart of additional competing "white label" branded money transfer products or otherwise;
- our ability to manage fraud risks from consumers or agents;
- the ability of us and our agents and other commercial relationships to comply with U.S. and international laws and regulations;
- litigation or investigations involving us or our agents and other commercial relationships, which could result in material settlements, fines or penalties, termination of contracts, other administrative actions or lawsuits and negative publicity;
- regulations addressing consumer privacy, data use and security;
- our ability to successfully develop and timely introduce new and enhanced products and services and our investments in new products, services or infrastructure changes;
- our ability to manage risks associated with our international sales and operations;
- our offering of money transfer services through agents in regions that are politically volatile;
- changes in tax laws or an unfavorable outcome with respect to the audit of our tax returns or tax positions, or a failure by us to establish adequate reserves for tax events;
- our substantial debt service obligations, significant debt covenant requirements and credit ratings;
- major bank failure or sustained financial market illiquidity, or illiquidity at our clearing, cash management and custodial financial institutions;
- the ability of us and our agents to maintain adequate banking relationships;
- a security or privacy breach in systems, networks or databases on which we rely and disruptions to our computer network systems and data centers;
- weakness in economic conditions, in both the U.S. and global markets;

- a significant change, material slow down or complete disruption of international migration patterns;
- the financial health of certain European countries or the secession of a country from the European Union;
- our ability to manage credit risks from our agents and official check financial institution consumers;
- our ability to adequately protect our brand and intellectual property rights and to avoid infringing on the rights of others;
- our ability to manage risks related to the operation of retail locations and the acquisition or start-up of businesses;
- any restructuring actions and cost reduction initiatives that we undertake may not deliver the expected results and these actions may adversely affect our business;
- our capital structure;
- and uncertainties described in the "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" sections of MoneyGram's public period reports filed with the U.S. Securities and Exchange Commission (the SEC), including MoneyGram's annual report on Form 10-K for the year ended December 31, 2020, and subsequent quarterly reports on Form 10-Q.

Additional information concerning factors that could cause actual results to differ materially from those in the forward-looking statements is contained from time to time in MoneyGram's SEC filings. MoneyGram's SEC filings may be obtained by contacting MoneyGram, through MoneyGram's web site at ir.moneygram.com or through the SEC's Electronic Data Gathering and Analysis Retrieval System ("EDGAR") at www.sec.gov. MoneyGram undertakes no obligation to publicly update or revise any forward-looking statement.

Non-GAAP Measures

In addition to results presented in accordance with accounting principles generally accepted in the United States (GAAP), this news release and related tables include certain non-GAAP financial measures, including a presentation of EBITDA (earnings before interest, taxes, depreciation and amortization, including agent signing bonus amortization), Adjusted EBITDA (EBITDA adjusted for certain significant items), Adjusted EBITDA margin, Adjusted Free Cash Flow (Adjusted EBITDA less cash interest, cash taxes and cash payments for capital expenditures and agent signing bonuses), constant currency measures (which assume that amounts denominated in foreign currencies are translated to the U.S. dollar at rates consistent with those in the prior year), diluted adjusted income (loss) per share and adjusted net income. In addition, we present adjusted operating income and adjusted operating margin for our two reporting segments. The following tables include a full reconciliation of non-GAAP financial measures to the related GAAP financial measures. The equivalent GAAP financial measures for projected results are not provided, and projected results do not reflect the potential impact of certain non-GAAP adjustments, which include (but in future periods, may not be limited to) stock-based, contingent and incentive compensation costs; compliance enhancement program costs; direct monitor costs; legal and contingent matter costs; restructuring and reorganization costs; currency changes; and the tax effect of such items. We cannot reliably predict or estimate if and when these types of costs, adjustments or changes may occur or their impact to our financial statements. Accordingly, a reconciliation of the non-GAAP financial measures to the equivalent GAAP financial measures for projected results is not available.

We believe that these non-GAAP financial measures provide useful information to investors because they are an indicator of the strength and performance of ongoing business operations. These calculations are commonly used as a basis for investors, analysts and other interested parties to evaluate and compare the operating performance and value of companies within our industry. Finally, EBITDA, Adjusted EBITDA, Adjusted EBITDA margin, Adjusted Free Cash Flow, constant currency, diluted adjusted income (loss) per share and adjusted net income (loss) figures are financial and performance measures used by management in reviewing results of operations, forecasting, allocating resources or establishing employee incentive programs. Although MoneyGram believes the above non-GAAP financial measures enhance investors' understanding of its business and performance, these non-GAAP financial measures should not be considered in isolation or as substitutes for the accompanying GAAP financial measures.
