MoneyGram International Reports Second Quarter 2020 Results

Returns to year-over-year revenue growth in June

Reports 106% year-over-year Digital transaction growth for the quarter

DALLAS (July 30, 2020) -- MoneyGram International, Inc. (NASDAQ: MGI) today reported financial results for its second quarter ending June 30, 2020.

Second Quarter 2020 Business Highlights

“We had a very strong quarter and materially outperformed on both the top and bottom-line, despite the continued global uncertainty from the COVID-19 pandemic,” said Alex Holmes, MoneyGram Chairman and CEO. “In June we returned to year-over-year revenue growth on strong money transfer transaction growth of 10%. This return to growth was driven by the rapid expansion of our digital business as well as the continued improvement of our walk-in business. Additionally, the resurgence of growth from the money transfer business, along with agile management of the business throughout the crisis enabled us to deliver year-over-year Operating Income and Adjusted EBITDA growth for the quarter.”

Holmes added: “We’re excited about the underlying momentum in our business driven by our digital transformation. The investments that we have made over the past few years have allowed us to build a fast growth digital business which not only has higher customer retention and productivity rates, but also surpassed the walk-in business during the quarter delivering higher margins on average. With digital now representing 27% of money transfer transactions, the business is providing a significant contribution to our bottom-line results.”

- MoneyGram achieved 106% year-over-year digital transaction growth in the second quarter – a significant acceleration from the first quarter of 2020 where the company reported 57% growth. Overall digital growth was driven by the following components:
 - **MoneyGram Online**, the Company's direct to consumer channel, delivered 104% year-over-year transaction growth driven by strong consumer demand for the MoneyGram app, high customer retention rates, and increasing productivity rates
 - **Digital partnerships**, driven by key partners in the Middle East and Asia Pacific, accelerated from 25% year-over-year transaction growth in the first quarter to 97% growth in the second quarter
 - **Account deposit and mobile wallet** transactions increased 148% which is an acceleration from the first quarter where the Company reported 80% year-over-year transaction growth
- Digital transactions accounted for 27% of all money transfer transactions in the second quarter
- The Company remains focused on executing the long-term strategy while managing through the crisis. During the quarter, the Company achieved a number of important milestones:
 - Expanded the loyalty program to new markets and launched product enhancements to improve the customer experience
 - Launched new wallet and account deposit partnerships in rapidly growing regions of the world
 - Strengthened the Company's leading position around the world by signing and expanding partnerships, specifically overhauling key receive markets

Second Quarter 2020 Financial Results, Year-Over-Year

- Total revenue was \$279.8 million, a decline of 14% or 13% on a constant currency basis primarily driven by the impact of COVID-19 on the first part of the quarter as the Company reported positive revenue growth in the month of June
 - Money transfer revenue was \$253.1 million, down 10% or 9% on a constant currency basis related to the impact of COVID-19 on the first part of the quarter
 - The Company reported positive money transfer revenue growth in the month of June on the strength of double digit cross border transaction growth
 - Investment revenue was \$4.3 million for the quarter due to lower prevailing interest rates
- Total operating expenses of \$257.8 million, improved \$51.7 million or 17%
 - Compensation and Benefits were flat including a \$5.9 million special compensation plan accrual to potentially restore compensation withheld during the quarter as part of the Company's proactive response to the COVID-19 pandemic
 - Transaction and Operations Support expenses were down over 60% primarily driven by efficiencies and operating reductions previously disclosed as part of the Company's proactive response to the COVID-19 pandemic
 - Included an \$8.8 million net benefit from Ripple market development fees of \$15.1 million, partially offset by related transaction and trading expenses of \$6.3 million
- Operating Income was \$22.0 million which was an increase of 54%
- Net loss was \$4.6 million for the quarter
- Diluted loss per share was \$0.06 and diluted adjusted income per share was \$0.01
- Adjusted EBITDA increased 4%, or 5% on a constant currency basis, to \$56.4 million
 - Adjusted EBITDA margin improved 340 basis points to 20%
- Adjusted Free Cash Flow was \$24.7 million, an increase of 24%

"As the ongoing COVID-19 crisis continues to impact countless lives around the world, the health, safety, and livelihoods of our customers, employees, and partners remain our top priorities. I'm extremely proud of how we've come together as a company over these last few months to exceptionally serve our diverse customer base of tens of millions of people who rely on our essential services," concluded Holmes.

Balance Sheet Highlights

Cash and cash equivalents on hand at quarter end were \$130.6 million compared to \$146.8 million at the end of 2019. As of June 30, 2020, the Company had repaid all outstanding borrowings under its revolving credit facility. Second quarter interest expense was \$22.7 million and capital expenditures were \$9.8 million.

As announced earlier this week, MoneyGram has signed an amendment with the DOJ to defer the final \$55 million payment to the end of the DPA in May 2021. The Government has agreed to extend the \$55 million payment to provide additional time to consider the basis for potentially reducing the final payment amount. The recent amendment also reduced the frequency of MoneyGram's DOJ reporting from a monthly to a quarterly reporting cycle.

Third Quarter 2020 Outlook Update

As a result of continuing economic uncertainty created by the COVID-19 pandemic, the Company is not providing a specific third quarter outlook. However, if revenue trends remain in their current range, then the Company would anticipate sustained Adjusted EBITDA growth in the third quarter.

Conference Call

MoneyGram International will host a conference call on July 31, at 9:00 a.m. ET, to discuss its results. Alex Holmes, Chairman and CEO, and Larry Angelilli, CFO, will host the call.

Forward-Looking Statements

This communication contains forward-looking statements which are protected as forward-looking statements under the Private Securities Litigation Reform Act of 1995 that are not limited to historical facts, but reflect MoneyGram's current beliefs, expectations or intentions regarding future events. Words such as "may," "will," "could," "should," "expect," "plan," "project," "intend," "anticipate," "believe," "estimate," "predict," "potential," "pursuant," "target," "continue," and similar expressions are intended to identify such forward-looking statements. The statements in this communication that are not historical statements are forward-looking statements within the meaning of the federal securities laws. Specific forward-looking statements include, among others, statements regarding the Company's projected results of operations, specific factors expected to impact the Company's results of operations, and the expected restructuring and reorganization program results. Forward-looking statements are subject to numerous risks and uncertainties, many of which are beyond MoneyGram's control, which could cause actual results to differ materially from the results expressed or implied by the statements.

These risks and uncertainties include, but are not limited to:

- the impact of the COVID-19 outbreak or future epidemics on our business, including the potential for work stoppages, lockdowns, shelter-in-place, or restricted movement guidelines, service delays, lower consumer and commercial activity;
- our ability to compete effectively;
- our ability to maintain key agent or biller relationships, or a reduction in business or transaction volume from these relationships, including our largest agent, Walmart, whether through the introduction by Walmart of additional competing "white label" branded money transfer products or otherwise;
- our ability to manage fraud risks from consumers or agents;
- the ability of us and our agents to comply with U.S. and international laws and regulations;
- litigation or investigations involving us or our agents;
- uncertainties relating to compliance with the Amended DPA entered into with the U.S. federal government and the effect of the Amended DPA on our reputation and business and our ability to make payments required under the Amended DPA;
- regulations addressing consumer privacy, data use and security;
- our ability to successfully develop and timely introduce new and enhanced products and services and our investments in new products, services or infrastructure changes;
- our ability to manage risks associated with our international sales and operations;
- our offering of money transfer services through agents in regions that are politically volatile;
- changes in tax laws or an unfavorable outcome with respect to the audit of our tax returns or tax positions, or a failure by us to establish adequate reserves for tax events;
- our substantial debt service obligations, significant debt covenant requirements and credit ratings;
- major bank failure or sustained financial market illiquidity, or illiquidity at our clearing, cash management and custodial financial institutions;
- the ability of us and our agents to maintain adequate banking relationships;
- a security or privacy breach in systems, networks or databases on which we rely and disruptions to our computer network systems and data centers;
- weakness in economic conditions, in both the U.S. and global markets;
- a significant change, material slow down or complete disruption of international migration patterns;
- the financial health of certain European countries or the secession of a country from the European Union;

- our ability to manage credit risks from our agents and official check financial institution consumers;
- our ability to adequately protect our brand and intellectual property rights and to avoid infringing on the rights of others;
- our ability to manage risks related to the operation of retail locations and the acquisition or start-up of businesses;
- any restructuring actions and cost reduction initiatives that we undertake may not deliver the expected results and these actions may adversely affect our business;
- our capital structure;
- and uncertainties described in the "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" sections of MoneyGram's public reports filed with the U.S. Securities and Exchange Commission (the "SEC"), including MoneyGram's annual report on Form 10-K for the year ended December 31, 2019.

Additional information concerning factors that could cause actual results to differ materially from those in the forward-looking statements is contained from time to time in MoneyGram's SEC filings. MoneyGram's SEC filings may be obtained by contacting MoneyGram, through MoneyGram's web site at ir.moneygram.com or through the SEC's Electronic Data Gathering and Analysis Retrieval System ("EDGAR") at <http://www.sec.gov>. MoneyGram undertakes no obligation to publicly update or revise any forward-looking statement.

###

Non-GAAP Measures

In addition to results presented in accordance with accounting principles generally accepted in the United States ("GAAP"), this news release and related tables include certain non-GAAP financial measures, including a presentation of EBITDA (earnings before interest, taxes, depreciation and amortization, including agent signing bonus amortization), Adjusted EBITDA (EBITDA adjusted for certain significant items), Adjusted EBITDA margin, Adjusted Free Cash Flow (Adjusted EBITDA less cash interest, cash taxes and cash payments for capital expenditures and agent signing bonuses), constant currency measures (which assume that amounts denominated in foreign currencies are translated to the U.S. dollar at rates consistent with those in the prior year), diluted adjusted income (loss) per share and adjusted net income. In addition, we present adjusted operating income and adjusted operating margin for our two reporting segments. The following tables include a full reconciliation of non-GAAP financial measures to the related GAAP financial measures. The equivalent GAAP financial measures for projected results are not provided, and projected results do not reflect the potential impact of certain non-GAAP adjustments, which include (but in future periods, may not be limited to) stock-based, contingent and incentive compensation costs; compliance enhancement program costs; direct monitor costs; legal and contingent matter costs; restructuring and reorganization costs; currency changes; and the tax effect of such items. We cannot reliably predict or estimate if and when these types of costs, adjustments or changes may occur or their impact to our financial statements. Accordingly, a reconciliation of the non-GAAP financial measures to the equivalent GAAP financial measures for projected results is not available.

We believe that these non-GAAP financial measures provide useful information to investors because they are an indicator of the strength and performance of ongoing business operations. These calculations are commonly used as a basis for investors, analysts and other interested parties to evaluate and compare the operating performance and value of companies within our industry. Finally, EBITDA, Adjusted EBITDA, Adjusted EBITDA margin, Adjusted Free Cash Flow, constant currency, diluted adjusted income (loss) per share and adjusted net income figures are financial and performance measures used by management in reviewing results of operations, forecasting, allocating resources or establishing employee incentive programs. Although MoneyGram believes the above non-GAAP financial measures enhance investors' understanding of its business and performance, these non-GAAP financial measures should not be considered in isolation or as substitutes for the accompanying GAAP financial measures.

Description of Tables

Table One	- Condensed Consolidated Statements of Operations
Table Two	- Segment Results
Table Three	- Segment Reconciliations
Table Four	- Reconciliation of Certain Non-GAAP Measures to Relevant GAAP Measures - EBITDA, Adjusted EBITDA, Adjusted EBITDA Margin and Adjusted Free Cash Flow
