Forward-Looking Statements

This presentation may contain forward-looking statements with respect to the financial condition, results of operation, plans, objectives, future performance and business of MoneyGram and its subsidiaries. Statements preceded by, followed by or that include words such as “believes,” “estimates,” “expects,” “projects,” “plans,” “will,” “should,” “could,” “would,” “goals,” “anticipates” and other similar expressions are intended to identify some of the forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 and are included, along with this statement, for purposes of complying with the safe harbor provisions of that Act. These forward-looking statements involve risks and uncertainties. Actual results may differ materially from those contemplated by the forward-looking statements due to, among others, the risks and uncertainties described in Part I, Item 1A under the caption “Risk Factors” of our Annual Report on Form 10-K for the year ended December 31, 2013, together with its quarterly reports on Form 10-Q made with the SEC through the date of this presentation. These forward-looking statements speak only as of the date on which such statements are made. We undertake no obligation to update publicly or revise any forward-looking statements for any reason, whether as a result of new information, future events or otherwise, except as required by federal securities law.

Adjusted Free Cash Flow	\$ 30.2	\$ 76.9

In addition to results presented in accordance with GAAP, this press release and related tables include certain non-GAAP financial measures, including a presentation of EBITDA (earnings before interest, taxes, depreciation and amortization, including agent signing bonus amortization), Adjusted EBITDA (EBITDA adjusted for significant items), Adjusted EBITDA Margin and Adjusted Free Cash Flow (Adjusted EBITDA less cash interest expense, cash tax expense, cash payments for capital expenditures and agent signing bonuses), and constant currency measures. In addition, we also present Adjusted Operating Income and Adjusted Operating Margin for our two reporting segments.

We believe that these non-GAAP financial measures provide useful information to investors because they are an indicator of the strength and performance of ongoing business operations, including our ability to service debt and fund capital expenditures, acquisitions and operations. These calculations are commonly used as a basis for investors, analysts and credit rating agencies to evaluate and compare the operating performance and value of companies within our industry. Finally, EBITDA, Adjusted EBITDA, Adjusted EBITDA Margin, Adjusted Free Cash Flow, and constant currency figures are financial measures used by management in reviewing results of operations, forecasting, assessing cash flow and capital, allocating resources or establishing employee incentive programs. Although MoneyGram believes the above non-GAAP financial measures enhance investors' understanding of its business and performance, these non-GAAP financial measures should not be considered an exclusive alternative to accompanying GAAP financial measures.
